10 1 **PRIOCAB Li EI90**
Free-standing cabinet for the storage of lithium-ion batteries,
2-leaf

PRIORIT free-standing housing, two-leaf type, suitable for smoke-tight and fire-resistant storage of lithium-ion batteries. The housing is made of noncombustible material, class A2 – s1, d0. The cabinets have a ventilation system in the rear panel and cable entries at the top and bottom as standard features.

Function

- Fire resistance rating over 90 minutes
- Tested fire protection from the inside and outside
- Tested fire load insulation
- Suitable for the storage of lithium-ion batteries

Construction

- Housing with high mechanical resistance
- Housing made of noncombustible material including the decorative surface
- Individual colour design
- Protection against unauthorised access – pivot lever with two-way cylinder
- All-round fire protection seal, intumescent in case of fire
- Top and bottom cable entry
- Integrated ventilation system, consisting of smoke detector and fan
- Cold smoke-tight closure system
- Smooth and easy, free-moving doors, inset type door, opening angle approx. 180°
- Accessible plinth (e.g. fork-lift forks), height 100 mm with removable plinth cover panel
- Four height-adjustable mesh shelves, load capacity 75 kg/floor

Material characteristic

- Standard surface CP laminate is chemically highly stable and moisture-resistant
- Non-combustible board with surface coating, classified A2 – s1, d0
- Surface light grey, similar to RAL 7035

Options

- Special decors / special colours
- Additional mesh shelf with 4 shelf supports, 30 x 1000 x 400 mm (H x W x D)
