**10 1 PRIOELEC EUL – 90 Minutes
Fireproof Distribution Cubicle**

Electro fire protection cabinet for wall mounting for the enclosure of electrical and electronic equipment. The cabinet is suitable for the separation of electrical distributors in rescue routes. The cabinet is smoke-tight and provides 90 minutes fire resistance.

Function

- Fire resistance of 90 min, fire-resistant
- Classification: suitable for fire load insulation of 30 minutes

Construction

- Empty case without back wall with high mechanical and chemical resistance
- Door can be unhinged
- Door stop changeable on site, DIN right/left
- Door closes flush with body, opening angle ca. 180°
- 2-point door locking with swing lever and double-bit cylinder
- Circumferential fire seals automatically expand in the event of a fire
- Cable entries top + bottom
- Cable cooling duct top + bottom, 300 mm high

Material characteristic

- Non-combustible board with surface coating, classification A2 – s1, d0
- Standard CPL surface
- Colour light grey, similar to RAL 7035, edges and bevels in different colour

Options

- Standardised colours - white, similar to RAL 9016; decor brushed aluminium; primer foil
- Special decors / special colours
