Fireproof Distribution Cubicle

Electro fire protection cabinet for wall mounting for the enclosure of electrical and electronic equipment. The cabinet is suitable for the separation of electrical distributors in rescue routes. The housing offers a fire resistance of 30 or 90 minutes.

Function

- Fire resistance of 30 or 90 minutes, fire-retardant or fire resistant
- Classification: suitable for fire load insulation of 30 minutes

■ Empty case

■ Changeable door stop

■ Cable cooling duct and mounting link

Construction

- Empty case without back wall with high mechanical and chemical resistance
- Door can be unhinged
- Door stop changeable on site, DIN right/left
- Door closes flush with body, opening angle ca. 180°
- 2-point door locking with swing lever and double-bit cylinder
- Circumferential fire seals automatically expand in the event of a fire
- Cable entries top + bottom
- Cable cooling duct top + bottom, 100 mm high (EUL31) or 300 mm (EUL91)

Material characteristic

- Non-combustible board with surface coating, classification A2 – s1, d0
- Standard CPL surface
- Colour light grey, similar to RAL 7035, edges and bevels in different colour
