10 1 **PRIORIT HSRZ CONT**
Mobile high-security room cell in container format

PRIORIT HS-RZ CONT is a fire-resistant IT-Room for the protection of IT, communication and network systems to EN 1047-2. As a flexibly usable and easy to transport container space solution, the standard HS-RZ CONT is prepared for flexible customer use and individual customer equipping with IT components. The space solution fulfils the strict requirements of EN 1047-2 and is ECB-S certified.

Function

- Fire resistance 180 minutes (Element testing for wall, ceiling, floor)
- Fire resistance 90 minutes (Element testing for doors, penetration seals)
- R 60 D classification
- Compliance with the limits specified in EN 1047 Part 2
- ECB•S certification
- System test by official material testing institute
- Protection rating according to IP 56
- Anti-burglary protection according to RC2 DIN EN 1627

Construction

- Standard ISO shipping container as external housing
- Wall structure inside made of autoclaved aerated concrete (AAC) (PP2 0.4 Thermal conductivity coefficient = 0.11 W/mK, 240 mm thick)
- Solid construction floor and ceiling elements inside (PDE4.4 0.55 Thermal conductivity coefficient = 0.18 W/mK, 250 mm thick)
- Additional internal lining with aluminum vapor barrier as protection against electromagnetic radiation and moisture
- Fire door
- Roxtec cable penetration seal with maintenance door

Material characteristic

- Steel sheet, painted outside
- Standard colour white resembling RAL 9016

Options

- Cladding of the container for outdoor installation
- Individual internal paneling
- Access control system
- Rail system, individually projectable, for simple installation and long-term IT-rack mobility
- Additional 'Roxtec' cable sealing with maintenance door
